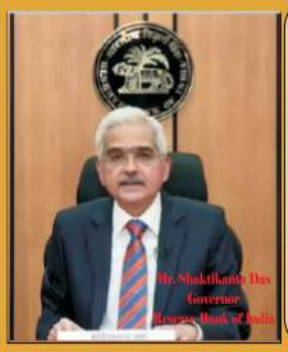
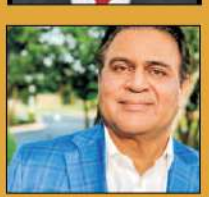
ON 6TH APRIL RBI ANNOUNCED THE DECISION FOR THE REPO RATE TO REMAIN UNCHANGED AT 6.50%



"Our Job Is Not Yet Finished And The War Against Inflation Has To Continue Until We See Durable Decline In Inflation Closer To The Target, "

"It Is Now Necessary To Evaluate The Cumulative Impact Of These Rate Hikes. Under These Circumstances, We Have To Be Extremely Prudent In Our Actions."

"We Have Always Been Really Watchful And Have Adopted A Calibrated And Balanced Approach."



OUR EXPERTS

Ms. Ayushi Ashar
Director
Ashar Group

"We are happy that the RBI has kept the REPO rates unchanged. The market has been stable after a period of volatility, and this decision will be big relief for homebuyers. There is rising demand for property, and home buyers are looking to purchase homes from a reputed developer. This decision shows that the Indian economy is stable and doing well, which will encourage home buyers to come forward and buy their dream homes. We are hopeful that in future the central bank will consider reducing the REPO rates, which will be great relief for the Home buyers."
